**Description :** Description du produitFrom the New York Times #1 bestselling author of Unnatural Exposure and Cause of Death comes a white-hot new Kay Scarpetta novel that pits Virginia's Chief Medical Examiner against an audacious and wily killer who uses fire to mask his crimes.

Prsentation de l'diteurThe clues to a series of remorseless killings go up in smokeand only Kay Scarpetta can find them in this #1 New York Times bestseller from Patricia Cornwell.Sears its way into the psycheAblaze with Cornwells finest, scariest writing.Atlanta Journal ConstitutionThe devastating fire tore through the horse farm, destroying everything it touched. Picking through the wreckage, Dr. Kay Scarpetta uncovers human remainsthe work of an audacious and wily killer who uses fire to mask his brutal murders. And when Scarpetta learns that her old nemesis, Carrie Grethen, has escaped from a hospital for the criminally insane and is somehow involved, the investigation becomes personal. Tragedy strikes close to home. And Scarpetta must match Grethens every move with one of her own to douse the inferno of evil that threatens everyone around her...Includes an Introduction by the Author.comVirginia's chief medical examiner Dr. Kay Scarpetta is getting ready for a romantic holiday with her retired-FBI-profiler boyfriend, Benton Wesley, when she

receives a cryptic and foreboding letter: "Hey DOC, Tick Tock, Sawed bone and fire," it begins. Even more creepy, the taunting note has been signed by Carrie Grethen, the psychotic killer Kay helped send to a psychiatric facility for going on a murder spree with Temple Gault in Cornwell's earlier book *Body Farm*. Benton believes that Grethen--who also happens to be the former lover of Scarpetta's niece Lucy--has big plans for a comeback. And before Kay and Benton can leave for their trip and discuss it further, Scarpetta is called upon to don yet another professional hat, that of a "consulting forensic pathologist" for the federal government. Someone has burned a highfalutin horse ranch and all of its contents, including a human being, to the ground. Worse, Grethen has escaped and is on the loose and closer to Kay and her beloved than she knows. *Point of Origin*, the ninth Scarpetta thriller, is classic Cornwell: rich with detail and strong dialogue, and doused with harrowing twists..com Audio Book When your everyday life is filled with death it's easy to find yourself a little edgy. The audio version of Patricia Cornwell's *Point of Origin* gives fans of her familiar heroine, Dr. Kay Scarpetta, a little something extra, a chance to hear the deep hurt and burning cynicism of the chief medical examiner's biting words. "You don't put your hands inside their ruined bodies and touch and measure their wounds.... You see clean case files and glossy photos and cold crime scenes. You spend more time with the killers than with those they ripped from life. And maybe you sleep better than I do, too. Maybe you still dream because you aren't afraid to." Perhaps because Kate Reading has also narrated Cornwell's *Unnatural Exposure* and *Cause of Death*, her voice conveys experience and the history of what has come before, allowing listeners to hear between the lines. Using a subtle but effective range of vocal inflections, Reading lifts the characters off the page and carries them along as the plot spins ever faster, tangling Scarpetta in a snarl of arson, deceit, and psychopathic murder. With her arch nemesis making threats and suspicious fires leaving calcified corpses, Dr. Scarpetta's long-overdue romantic getaway has gone up in smoke. It's just one more day at the morgue, and *Point of Origin*, another hit in the popular series of Scarpetta mysteries, finds the good doctor's attitude honed razor sharp.
