Description :

Prsentation de l'diteurIn this coming of age story, the young nobleman Kalen Avanir, accompanied by his cousin Jad, travels from his war-torn homeland of Rhakhaan to the canal city of Sel-kai. On his journey, he discovers a mysterious artifact with strange powers: an amulet with a phoenix symbol, the emblem of his kingdom. Soon, forces for good and evil are drawn to him and to the amulet. While seeking to understand the powers of the item he carriesand his own place in this net of intrigueKalen finds plots everywhere in Sel-

kai; and the terrifying agents of the Iron Wind from the north are closing in. Meanwhile, other factions from the Loremasters to the Dragonlords are seeking the amulet and other ancient artifacts with increasing urgency. Kalen must master the phoenix and his own fledgling magical powers before it is too late. Loremaster Legacy is set on the Shadow World, where magic competes against brute force of arms, where political intrigue can be found within every realm, and where warfare between neighbor countries is commonplace. And there is a greater crisis, and a looming disaster that may unleash ancient powers of the Shadow World to the galaxy beyond. A few fight against the chaos, led by the Loremasters. But there are other powers for good and evil. Meanwhile, other forces encourage a descent into darkness. Counted among these are the terrifying Priests and Messengers of the Iron Wind. And there are the mysterious Dragonlords, elder creatures who can take the form of men. Then there are the Navigators, who aid in travel across the treacherous planet. But some believe these guides really only seek the artifacts of the ancient Essaence Lords, the long-extinct race who predate the current inhabitants of this world. It is said that the Lords possessed magic far greater than the mightiest sorcerers of the current day and something else: technology. Some of the Elves have been experimenting with technology of their own, building mechanical devices and vehicles that fly in the air. These are crude machines compared to what the Essaence Lords built, but many call this meddling with machines to be dangerous blasphemy, and that it was the cause of the fall of the Essaence Lords. But perhaps the greatest threat of all to the Shadow World is the very energy that grants the gift of magic: the manifestations of this known as the Flows of Essaence. When these flows build up to a critical point, they burst into storms that not only disrupt weather and the powers of those using magic, but also rip open portals to other places and planes. Struggling to save their world are a few survivors of the ancient race, and a handful of young men and women just discovering their unusual gifts and a heavy legacy laid upon them: the Legacy of the Loremasters.
